

‘TECH TYCOON’

22.11.21

“Let’s go invent tomorrow instead of worrying about what happened yesterday.”

Gadgets have become an irreparable part of everyone's life as they make the work easy. To make the students aware about its importance and also to show their creative aspect by using some valuable and recycled waste material to develop the same, a Tech Tycoon Competition was organised on 22.11.21.

The students made fantastic gadgets like laptop, walky talky, i phone etc. and explained their creation. Their creativity spell bounded the judges of the event. The criteria of judgement was innovative idea, neatness and creativity. This competition gave a chance to the little Agarsainians to unleash their imagination and show their talent.
