

Class -2 Day-6 Activity

Thinking Bubbles

Date: 06.05.19

“Education is not the learning of facts, but the training of mind to think.”

It is said that we cannot solve our problems with the same thinking we use when we created them. So, to enhance thinking skills of the students, Class 2 conducted **“Thinking Bubbles”** activity to activate their brains.

A vocabulary crown was held above a student’s head with some words written on it. The class was divided into groups. The students of each group collaborated with each other to find the best clues for the student with the crown, to guess the word given above him.

“I cannot teach anybody anything, I can only make them think.”

In this way, they put their thinking caps on and gave several associated words for guessing the main word. This activity helped students to think and speak using their brain and also enhanced their vocabulary skills.
