

MAPS-READING CAMPAIGN

“Reading is to the mind what exercise is to the body.”

Keeping the same in mind, 100 days Reading Campaign has been launched by Ministry of Education. Under this project, the students were taken to Virtual library tour of the school. It was the first step for our Agrasainians towards the love of reading followed by an activity in which students weaved a story. To introduce early literacy students of Balvatika wrote letters on the sand tray and with clay. A story presentation by Ratna Sagar Publications was conducted for Pre School and Montessori 1 students under the Reading Campaign. Students were engrossed in the story of "Hungry Caterpillar" which was narrated to them with different teaching aids and facial expressions. Weaving a story is an art. In the activity, students of class 1 & 2 weaved a story about their family members in which they used their old family photographs too. They all narrated their stories to their classmates with great zeal. The activity helped the learners in enhancing their writing, creative and speaking skills. The session was indeed valuable and distinct.
