

He who has health has hope; and he who has hope has everything.

The enthusiastic Agarsanians highlighted the need and awareness for health by celebrating World Health Day on 7th April 2016. Our young chefs displayed their skills by preparing nutritious victuals. The students of class 3 made mouth-watering salads and class 4 students made palatable chaats. It was an awesome experience for all and everyone savoured each moment of these delightful activities. These activities were aimed at elaborating the idea of health and hygiene. The students of class 5 had a discussion on importance of health and hygiene which was followed by the selection of House Captain and Sports Captain.
