

## *A heritage reflects a nation's history and, thus, it establishes a nation's identity*

On the occasion of the World Heritage Day, the young Agarsainians were motivated to develop a responsible attitude towards the world heritages. Well-planned activities were conducted to spread awareness among our avid learners about the need and importance of protection and conservation of our cultural heritages and historical monuments. The students of class 3 were guided to create Venn diagrams to exhibit their understanding of the word “Heritage”, Class 4 students created informative sheets about the monuments of their choice and the students of class 5 held group discussions on the topic “Heritage”, so as to explore and acknowledge responsible perspectives. It was a successful day as our keen learners were able to perceive the significance of our heritage sites.
