

CLASS I DAY-6 ACTIVITY (13.01.17)

TOPIC- CULTURAL FUN

"A nation's culture resides in the heart and soul of its people."

To inculcate this into our little Agarsainians of Class-I, a **Collage making Activity** was organized. Students were divided into various groups where each group made a collage of the state allotted to them. Students indulged themselves into the tradition and heritage of every state as they pasted the traditional dresses, languages, famous food items and the capitals of these states. **The event provided an excellent platform for the students to explore the diversification and culture of India.** They learnt a lot about the golden heritage of our country and felt proud to be a part of India.
