

**DAY -6 ACTIVITY (CLASS 2)**  
**TOPIC-ENJOYING FIESTA**  
**DATE - 03.08.2017**

Raksha Bandhan or Rakhi is a popular festival of India. This festival reflects the bond of love and care between brothers and sisters.

As the festival of Rakhi is approaching, students of class -2 were very excited and made beautiful rakhi using mathematical shapes. Children, thereby, learnt about various mathematical shapes and really enjoyed making wonderful rachis.

It was followed by a healthy discussion on the celebration of this pious festival. All the students participated in the activity enthusiastically.
