

HOUSE ACTIVITIES – PRIMARY (10.10.2018-01.11.2018)

*****10.10.18*****

MATHEMATICAL PATTERNS- CLASS 3

The ability to recognize and create patterns helps to make predictions based on the observations which is an important tool for students to master mathematics.

Students of class 3 learned about various mathematical patterns through an interesting and engaging video session. They shared their learning with their fellow mates and tried identifying patterns in the objects in their surroundings.

TIPPY TIPPY MATHS- CLASS 4

Learning with fun and games can never go wrong. Students of class 4 enjoyed learning the basic operations of Maths (Addition, Subtraction, Multiplication and Division) through the new version of their all time favourite game 'Tippy Tippy Tap'. Students prepared their own 'TIPPY TIPPY' with problem sums using the basic operations of Maths. The activity also incorporated various moral values like Punctuality, honesty, loyalty etc.

MATHEMATICAL PATTERNS- CLASS 3

Mathematics not only develop engineers and scientist, but also produce students who can learn and think creatively and critically. Class 3 students used their mathematical skills to create beautiful landscapes using mathematical patterns and geometrical shapes. The activity not only developed their mathematical knowledge but also enhanced their creative and imaginative skills.

TIPPY TIPPY MATHS – CLASS 4

Our values are important because they help us to grow and develop. They help us to create a future we want to experience.

Class 4 enthusiastically prepared their TIPPY TIPPY games and thoroughly enjoyed playing it with their friends.

The activity not only reinforced the basic mathematical operations but also incorporated various moral values like punctuality, honesty, loyalty etc.

PROBLEMS SOLVING – CLASS 5

We all face problems every day that need solving. Being a problem solver isn't just an ability, it's a whole mindset that drives people to bring out the best in themselves.

Students of class 5 teamed up to find out the solutions to the problem scenarios provided to them, each group presented their challenge and its solutions in front of their fellow mates.

They learned the importance of not just problem solving skills, but also leadership, teamwork, creativity, persistence and charm.

*****01.11.18*****

STORY TELLING- CLASS 3

Stories play a vital role in the growth and development of children. They are the reflection of the world we live in. The art of story telling helps students to enhance their oratory, thinking, imaginative and creative skills.

Class 3 students actively participated in a story telling session wherein they presented their self created stories to their fellow mates. Students created wonderful stories using their imagination and creativity.

PROBLEMS SOLVING – CLASS 4

We all face problems every day ,that need solving. Being a problem solver isn't just an ability, it's a whole mindset that drives people to bring out the best in themselves.

Students of class 4 teamed up to find out the solutions to the problem scenarios provided to them, each group presented their challenge and its solutions in front of their fellow mates.

They learned the importance of not just problem solving skills, but also leadership, teamwork, creativity, persistence and charm.

INTER HOUSE COMPETITION- CLASS 5

Teasing is often part of growing up — almost every child experiences it. But it isn't always as innocuous as it seems. Teasing becomes bullying when it's repetitive or when there's a conscious intent to hurt another child. It can be verbal bullying (making threats, name-calling), psychological bullying (excluding children, spreading rumors), or physical bullying (hitting, pushing, taking a child's possessions). Students from class 5 showcase various types of bullying through enactment and they shared the ways to deal with it.
