

Day-6 Activity Class-1

Topic-

Date:- 19.07.19

Creativity is one of the superpowers that can help you become the best version of yourself and make the world a better place. The great thing is that everyone has the power to be creative in their own way. But it can take also take some work. As Mary Lou Cook said, “Creativity is inventing, experimenting, growing, taking risks, breaking rules, making mistakes, and having fun.”

On this Day – 6 class-1 students showed their creativity in an unusual way. The children made different kinds of vehicles that they would use in case of any disaster. In this process we were able to see the innovative ideas that the children had in designing of vehicles using the waste material such as – match box, bottle caps, ice-cream sticks, buttons etc.

This activity was very enriching as children enjoyed the invention needed in their craft with imagination thoroughly.
