

Day 6 Activity Class 2
21.1.2020

Topic: Happy New Holiday

“The imagination is the golden pathway to everywhere.”

Speaking allows us to form connections, influence decisions, and motivate change. Without communication skills, the ability to progress in the working world and in life would be nearly impossible.

In order to enhance the speaking skills and creativity of learners, 'Happy New Holiday' activity was conducted in class 2. In the activity, students were asked to decide and name a day which they want to declare as holiday. Along with it, they were asked to speak how they want to spend that day.

All the students participated in the activity with great zeal and enthusiasm. The activity really helped to improve their communication skills and enhanced their imaginative power. It was a great learning experience for everyone. All the students were appreciated for their commendable efforts.
