

## DIWALI CELEBRATIONS

*Light a lamp of love!*

*Blast a chain of sorrow!*

*Shoot a rocket of prosperity!*

*Fire a flowerpot of happiness!*

Diwali is a festival of happiness and is the noisiest on the Hindu calendar. MAPS students are always eager to spread awareness about any social issue. In order to promote the idea of celebrating cracker-free Diwali, students of the primary wing performed various activities. Students of classes 3 and 4 prepared lanterns and candle stands and students of Class 5 packed them in boxes along with chocolates, sweets and almonds. They also decorated the boxes very beautifully.

Students from primary wing along with the members of Interact Club visited a primary school in J.J.colony and distributed the gifts among the students.

A well prepared Nukkad Natak on 'Say No To Crackers' was presented by primary wing students in order to spread awareness. It was appreciated by everyone present at the school in the colony. MAPS students were able to spread the message of cracker-free Diwali among the children.
