

Visit to food hillz

Montessori 1 & 2

(03.08.17)

Field trips give students educational knowledge away from their regular school routine. To give them hands on experience about different fruits and vegetables **Montessori 1 & 2** organized field visit to '**FOOD HILLZ**' in **Ashok Vihar** on **03.8.17** i.e. **Thursday**. Children were very happy and excited throughout the visit. Staff at the market was very friendly and spared their valuable time for our tiny tots. Teachers show them different fruits and vegetables which are not usually available in the local market like Lettuce, dragon fruit and bell peppers. Students purchased fruits and vegetables of their own choice learning the concept of purchasing, selling, importance of money. Besides enjoyment the day also brought with it lots of information for the kids.
