

Graduation Day

28.02.2020

"You're off to grate places,
Today is your day!
Your destination is waiting,
So....get on your way!!"

The beams of laughter, the tears of sorrow, the hard work, appreciation and then the final countdown begins for the most awaited day- GRADUATION DAY. On 28th February 2020, the school auditorium was illuminated with shining faces of the Nursery wing tiny tots, to celebrate the Graduation Day. The vibrant music and coordinated dance steps set the mood at MAPS for the celebration. It was indeed heartwarming to see the little angels growing into beautiful butterflies who were ready to flit away into the sky yonder.

These little ones those will now graduate to another level now will be our future MAPS graduates, moving forward to yet another new beginning of a new chapter in their lives.
