

# PICNIC- NEHRU PLANETARIUM AND RAJGHAT

CLASS 1 & 2

21.01.2017

The School organized a trip to the **Nehru planetarium and Rajghat** on 21 January 2017. Around 275 students of class 1 & 2 were set to go for the picnic unaffected by the frosty weather, full of excitement and shudder. The first show, about the Solar System, started at 9:30 a.m. We reached the place well in time before the start of the 1st show. The idea was to look up like an open sky towards the dome ceilings for an illuminated show of the stars, galaxies, constellations and the planets of the universe. After that students were very jovial to see the “Nehru Memorial Museum and Library” located within the same premises. Next stop was Rajghat, a black marble platform that marked the spot of Mahatma Gandhi's cremation or Antim Sanskar on 31st January 1948, a day after he was assassinated. It was a huge fun filled picnic accompanied by teachers and everyone relished and had great fun.
