

Reading Day

25.06.2020

"TODAY A READER, TOMORROW A LEADER"

Keeping this in mind, "Reading Day" was organized in nursery wing. It is celebrated in the memory of Sh.P N Panicker who is called "Father of Library" as he set up first library in the country.

To mark the occasion, a reading activity was organized. In this activity, picture compositions were shown to the students and they were asked to observe the actions and express in simple sentences. Picture Composition plays a pivot role in developing the skill of observation, organisation of thoughts and sentence framing capabilities. The kids fully enjoyed the activity and showed great enthusiasm by explaining different acts shown in the picture.

The above activity was very useful to inculcate interest for reading among the students.
