

Day-6 Activity class I & II
CLASSROOM READING CORNERS

13.9.2019

“A book is a gift that you can open again and again”

Books are like a treasure, sometimes a treasure of knowledge, sometimes of learning new skills and sometimes of entertainment. The key to this treasure chest lies in acquiring the skill to read. Once that is done, a new world opens out to you. And the surprises and gems in this are never ending. The world of reading books is equally endless.

Keeping this in mind, an activity was conducted for the students of class I and II where every student read a story book. They discussed the story with their partners and the small presentation was given by them.

This activity helped the students in-

- **Boosting their brain power.**
- **Improving focus and concentration.**
- **Vocabulary expansion.**
- **Enhancing imagination.**
