

'RIDE ALONG RACE'

Pre Primary

26.08.2019

Learning about community helpers and what they drive can be fun for students. To integrate this concept with physical activity can be more rejuvenating.

To make learning more interesting a 'Ride along Race' was conducted on 26.08.19 for Pre Primary students. The students easily matched the helpers with the vehicles they use. It was a fun filled activity for them.
