

# VISIT TO TRAFFIC TRAINING PARK PRE SCHOOL

29.08.19 & 30.08.2019

An educational excursion to the Traffic Training Park was organized for Preschool students. The excursion aimed to introduce the children to basic road safety rules, to reinforce what was taught in the classroom. Commonly used road signs/symbols were introduced and necessity of traffic signals was also explained. A live demonstration was aided by flash cards. The children were excited to see the fabricated pedestrian pathways, signboards and traffic lights, a foot over bridge etc. which were created in miniature to suit the level of students. It was an enlightening experience to reinforce the safety of oneself on road.
