

TRAFFIC TRAINING PARK

PRE PRIMARY

An excursion to Traffic Training Park was organised for Pre Primary classes with an objective to reinforce the curriculum with a firsthand experience for the young ones. A representative explained the road signs, symbols and traffic signals to the students and their importance for safety. It was a pleasure watching the students spontaneously answering the questions put to them.

The young listeners carried with them, the message of road safety and importance of safety rules. It was an enriching hands' on experience for them.
