

CLASS -I

DAY-6 ACTIVITY (18.11.16)

TOPIC-WONDER WATER TRICKS

"The true method of knowledge is doing experiment."

The students of class-1 performed "Wonder Water Tricks". The students displayed various tricks using water. They mixed salt, colour, mud, sugar and stone in water and showcases different activities. They used their creative ideas such as printing the sheet using thread and different coloured water. Later they come up with conclusion that sugar and colour mix with water while stone and mud remain at the bottom. So it was learning through fun.
