

MAHARAJA AGARSAIN PUBLIC SCHOOL a Cambridge International School

'Knowledge is not something a learner absorbs but something he uses to create'

Gadgets are electronically simplified applications that make work easy. To design and create a modern technology gadget using waste materials, fostering resourcefulness and mindful innovation. The innovative and creative ideas put together by the tiny tots will help unleash their wild imagination through

The Tech Tycoon Competition

on 14.11.2024 (Thursday)
for Montessori-2

IMPORTANT POINTS TO BE KEPT IN MIND: -

- A child has to create any 1-computer gadget like (Robot, walky-talky, smart watch etc by using recyclable waste material.
- All the students will get 40 minutes to complete their creation.
- After the completion of craft work, students will talk about their gadget in 2-3 lines.
- It is mandatory for all the children to participate, as grades will be given for the same.
- Judgment will be done on the basis of innovative idea, neatness and creativity.
